

MB-S10 S2

“Small and efficient”

The smallest of the MB screening bucket line, suitable for mini excavators from 4 to 9 Ton.

It is a great choice for small yards and landscaping jobs.

Ideal for before or after crushing, the MB-S10 S2 screening bucket will reduce crushing time up to 60% by screening out unwanted material (quarry residue, dry soil, and river stone) of any kind, making it convenient for on-site processing.

Crucial in space limited applications.

The screening buckets MB are equipped with baskets formed by interchangeable modular panels, available with holes of different sizes based on requirements.
